

SOMERSET COUNCIL
Norton St Philip Parish Council
Cllr Dawn Denton
September 2024

Somerset Press Releases: You can view all the Somerset County Council press releases for the last month using this link: <https://www.somerset.gov.uk/newsroom/>

Parking on Footway: Val Fox chased Highways on 6th August about installing bollards on B3110 Townend / High Street. I will chase this month as the paving is continuing to deteriorate.

Rights of Way: I have asked the Rights of Way Officer to assess the following paths: *F11/7, F11/8, F11/12, F11/23, F11/33, F11/34, F11/39*. I have not heard back over the summer but will chase this month.

Longmeadow development: The Malcolm Lippiatt has been asked by Somerset Council for a water table assessment before anything can progress. I will chase this month.

Bath Rugby: I have not had an update from the Environmental Officer who was visiting the site during a wedding over the summer. I will pass on any update.

Farleigh-Hungerford Mill Stream Bridge: This bridge was assessed two winters ago and no action has been taken. No update either, so I will chase again this month.

Farleigh Woods: I have not heard back from Simon Trafford in relation to the legalities of the established community in the woods. I will chase this month.

Winter Fuel Payments: The announcement by the new Labour Government to stop paying Winter Fuel Payments to those pensioners not receiving Pension Credits will impact over 110,000 residents in Somerset. This together with the rise in the fuel cap will have a significant impact upon a large proportion of them.

Commercial Investments: Somerset Council completed the sale of another Commercial Investment - its property at Aztec West, Bristol. The building is one of many commercial assets that the Council is disposing of as part of its property rationalisation programme established in response to the financial emergency. Other commercial assets recently sold include the Steelite factory (Stoke-on-Trent) and Howdens (Bromsgrove).

Reducing carbon emissions: Somerset Council is encouraging businesses to reduce their carbon emissions by registering for the Go Green Scheme. Part of the scheme will enable businesses to take advantage of a free carbon reduction plan, which will improve energy efficiency and is likely to reduce running costs. The Go Green Scheme is funded by the UK Government to support businesses transition to a cleaner, greener economy. A tailored report then sets out the current energy usage, the alterations and support needed to achieve the predicted energy reduction. To find out more about the Go Green Scheme and to register interest

visit <https://www.somerset.gov.uk/business-economy-and-licences/net-zero-for-business/> and scroll down to the Sustainability Audit.

Trading Standards: Businesses across Somerset are being warned that they are putting their livelihoods at risk by not asking for identification when selling age-restricted goods such as vapes, tobacco and alcohol. This follows the prosecution of a shopkeeper from Bridgwater who has been ordered to pay more than £3,500 after being caught selling vapes to a 15-year-old girl. The girl was in fact a volunteer in a test purchasing exercise on behalf of the Trading Standards Service.

Evercreech recycling centre open day: As part of this year's Heritage Open Days SUEZ recycling and recovery UK will be providing another look behind the scenes at a recycling facility in Somerset. Evercreech Materials Recycling Facility will be open to the public for a series of free tours in September. Not normally open to members of the public, the open day gives a unique opportunity to go behind the scenes. Tours will be taking place on Saturday, 14 September, every hour from 10am, with the last tour at 2pm. Entry is free but visitors must book in advance to avoid disappointment on the day. Tickets are available at <https://www.eventbrite.co.uk/e/heritage-open-day-evercreech-household-recycling-sorting-facility-tickets-976107793687>

Walk for life: The third annual 'Walk for Life' event, aimed at raising awareness of suicide prevention, is being held on Saturday 7 September. The walk starts at 10:30am at the Quaker Meeting House in Taunton and will pass through Taunton Town Centre, stopping in Vivary Park at the "Afterlife" bench to lay flowers to commemorate loved ones who have died by suicide. Participants can download a free back sign from <https://walkforalife.org.uk> to personalise in remembrance of a loved one or collect one on the day. The event is run in support of World Suicide Prevention Day which occurs annually on 10 September and this year's theme, 'Change the Narrative', encourages open discussions about mental health and suicide to break the stigma and foster understanding and support.

Green Flag Awards: Four of the Councils managed open spaces have been awarded the prestigious Green Flag Award for 2024 – Ham Hill, Yeovil Country Park, Wellington Park and Blenheim Gardens in Minehead. Somerset Council had taken the decision not to enter their parks into the Green Flag Award competition this year due to budget constraints but the four which retained their green flag status were entered by local voluntary groups and Minehead Town Council.

On Your Bike: A new initiative with SUEZ and charity, On Your Bike means that bikes collected via the council's bulky collection service will now be donated to On Your Bike. Previously recycled bikes will now go to new homes. On Your Bike's aim is to train and support those in the community who have suffered social exclusion, have physical disabilities or mental health issues. This includes ex-service personnel, refugees, ex-offenders, homeless and long term unemployed. Bikes that are donated to On Your Bike are then refurbished and sold in their Bridgwater and Taunton shops. All funds generated go back into local projects. On Your Bike received more than 25 bikes.

Fostering: With over 600 children in care and fewer than 200 in-house Foster homes more people are needed to come forward to train as foster carers. More information can be found at www.fosteringinsomerset.org.uk or by calling 0800 587 9900.
