

A photograph of an elderly man and woman smiling and leaning their heads against each other. The man is on the left, wearing a grey jacket over a patterned shirt. The woman is on the right, wearing glasses and a green top. The background is slightly blurred, showing what appears to be an outdoor setting with a building and some foliage.

Are you aged 75 to 79?

**You can protect yourself
from serious lung infection.**

**Every year, thousands of older people need hospital care
for respiratory syncytial virus (RSV) infection.**

It affects the lungs and can cause pneumonia.

**RSV vaccination is the best protection,
with over 75's a priority for a free NHS vaccine.**

**If you're aged 75 to 79 (or turned 80 after 1 September
2024) your GP surgery will contact you for an appointment.**
